All sessions will be conducted through video webcasts and will take place in the Eastern time zone.

### **About Star Gold Corp.**

Ground to Vault. Building shareholder value through disciplined execution of our three-year development plan. Star Gold is currently dedicated to developing its flagship project, the Longstreet Project, which is a gold and silver project located in Nevada. Star Gold owns 137 unpatented mining claims and also leases, with the ability to purchase, 5 unpatented mining claims located in Nye County, Nevada. The Longstreet Project covers 1149 hectares. There currently an existing 3% NSR on the 137 claims and a 1.5% NSR on the 5 claims. Star Gold has no minimum work commitments on the Project and is focused on finishing the reports required for a potential Environmental Impact Statement.

This presentation is for the purpose of providing information regarding the Company, including management's assessment of the Company's future plans and operations and certain statements set forth in this presentation are forward looking. All statements other than statements of historical nature included in the presentation, including, without limitation, statements regarding the Company's future financial position, business strategy, budgets, projected costs and plans and objectives of management for future operations, are forward looking statements. In addition, forward looking statements generally can be identified by the use of forward-looking terminology such as "may," "will," "expect," "intend," "project," "estimate," "anticipate," "believe," or "continue" or the negative thereof or similar terminology. Although any forward-looking statements contained in this presentation are, to the knowledge or in the judgment of the officers and directors of the Company, believed to be reasonable, there can be no assurances that any of these expectations will prove correct or that any of the actions that are planned will be taken.

Forward-looking statements involve known and unknown risks and uncertainties that may cause the Company's actual performance and financial results in future periods to differ materially from any projection, estimate or forecasted results. Some of the key factors that may cause actual results to vary from those the Company expects include inherent uncertainties in interpreting engineering and reserve or production data; operating hazards; delays or cancellations of drilling operations because of weather and other natural and economic forces; fluctuations in mineral prices in response to changes in supply; competition from other companies with greater resources; environmental and other government regulations; defects in title to properties; increases in the Company's cost of borrowing or inability to raise, or unavailability of, capital resources to fund capital expenditures; and other risks.
